Introduction

Spaztoken project is designed to be a bridge between businesses and children's wellbeing. It will offer great investment opportunity for all interested investors. It is no news that the cryptocurrency market cap is growing by the day, thus a great rewarding venture for businesses. The future appeal of cryptocurrencies lies in allowing everyone benefit from an uninterrupted channel of personal financial dominance, secure global transparent transactions, lower transaction fees when compared to all existing fiat currencies or central banks digital currencies. Spaz Play Theme Park will be sited in a strategic location that will ensure convenience for not only interested clientele but also employees of the spaztoken project as well. We have a team of highly qualified professionals, who will work with children and our clients, to use our eco-friendly Spaz Play Playground and Children's Play Center facility in the most advantageous way possible for child development and to ensure any household living in Africa can afford.

There are several sustainable and expansion strategies in place to ensure that our business continues to grow strong both in the decentralized blockchain world and infraverse.

Spaz play Playgrounds will be centrally located in densely populated, residential areas, with the targeted demographic (high population of children under age eighteen, in African countries); this is obviously going to give the project an edge amongst other competitors who have no presence there.

Value

The principal strength and competitive edge of spaztoken is embedded in its incredible community and core development team that guarantees world's best security and administration quality. In the interim, spaztoken skilled activity group will make a splendid and prosperous future through long haul and enormous scope on the web/disconnected advancement and activity. The project revenue will be remunerated to dynamic users who contribute and advance in the platform engagement both offline and online. Due to the architecture of the spaz ecosystem we are sure the amusement model will give our community the autonomy and rewarding addition function implemented in the usage of the spaztoken platform both in the short and long terms.

Mission

Our knowledge of the world's financial system has given us the drive to create a system that is stable, risk free and appealing to the world as we help in the transition from the fiat currency to cryptocurrency. The spaztoken project is contributing to the global economic morphism through children entertainment and amusement also to create a channel where users can have total control of their assets and fun engagement in real time without restrictions of location, corporate and political influence. In addition the spaztoken ecosystem will ensure independent control of users data by the users only without a third-party influence or breach.

Vision

spaztoken will restructure how cryptocurrencies are perceived by making the entertainment on the blockchain seamless, refined and trustless which will also have additional impact of positivity in the lives of its daily users.

Game On!

The spaztoken project is a rewarding web based infraverse platform for underage kids and teenagers who we believe deserve opportunities to participate in a well entertaining and passion developing childhood.

Globally there are lots of kids deprived of adequate comforting experience when it comes to playgrounds, central parks, toy stories etc. This project is to help improve their livelihood and decency through unforgettable entertaining experience by creating an infraverse bridge to help parents with busy work schedule, time consuming business management and their children by creating accessible facilities using modern technologies inform of decentralized architectural frameworks.

spaz play is a reality experience but also the team amusement park plan of this guide who are direct team amazing project which will remember of the project. We sited in strategic locations that have several sustainable and will ensure convenience for not expansion strategies in place to only the users to get to get ensure that our business continues deeply involved with on-demand to grow strong.
